Applicant Name Ron Mobley

Address

Phone &

PROJECT DESCRIPTION Please include a detailed map of the project area, photos and budget to summarize expenses.

12 Digit HUC: 170702040601

SWCD LRP Priority Ranking#

NRCS Practice Code: 314

NRCS Practice: Brush Management

Is this project Ag Water Quality Related? NO

ODA Management Area: LD

Is this project part of a Farm Bill program or receiving any other Cost Share? YES or **NO**

1. Project Proposal – Please describe the resource concern, what will be done & who will do the work. *(additional space on reverse side if needed)*

This project will remove juniper trees on approximately 75 acres. Juniper trees use a substantial amount of water and reduce the amount of water available to other plants and outcompete native vegetation.

2. Describe how this project will address the resource concern or provide an overall benefit that this project will provide to the watershed.

Removing junipers can improve soil and water infiltration which can increase the amount of water available for plant growth, groundwater recharge and spring flow. Junipers can create more bare ground, which can increase the potential for soil erosion.

Estimated Total Cost: \$ 12,100.00

Project Start Date: Dec. 2024

Amount Requested: \$ 6,050.00

Completion Date: Dec. 2025 est.

(50%, UP TO \$7,500) Budget space is provided on reverse side
